

University of Amsterdam Programmes

Courses, eligibility, fees and dates for an admissions assistant

Document type: Programme catalogue prepared as a knowledge source for a university admissions assistant (retrieval-augmented generation)

University covered: University of Amsterdam (UvA), the Netherlands

Programmes covered: 15 sample records: 6 Bachelor's, 5 Master's, 3 MBA and 1 PhD. UvA says it has over 20 English-taught Bachelor's programmes and over 170 English-taught Master's programmes, so this is a small sample

Sources: The university's own pages on uva.nl, plus abs.uva.nl (Amsterdam Business School) for the MBAs and auc.nl (Amsterdam University College)

Retrieved: 6 October 2026

Currency: All amounts are in euros (EUR)

How this document is organised

Pages 2 to 4 hold facts that apply across programmes: tuition fee rates, general application rules and living costs, and an index. After that, each programme has its own record ID. Every page of a record repeats the university name, programme, level and source URLs, so it can be retrieved and answered from on its own. Each programme takes two pages: part 1 holds the course facts, dates and fees, and part 2 holds eligibility and how to apply. A page-level splitter gives two chunks per programme.

How to read the values

'Not stated on source page' means the university page read for this document did not give that value. It does not mean there is no requirement, fee or deadline. An assistant should say the value is not available here and point the applicant to the university.

Tuition fees for Bachelor's and Master's programmes are the 2026-2027 rates, the latest published. Application deadlines are mostly for the 2027-2028 intake. The fee for 2027-2028 may differ.

UvA programme pages do not quote a fee; they link to a central fee table. Each record therefore states the fee for the category the programme falls under (faculty and programme length) and names that category. Where the programme's own page did not state the faculty, the category is an assignment made for this document and should be confirmed in UvA's fee table.

The statutory fee is the lower, government-set fee for eligible EU/EEA, Swiss and Surinamese students taking a first degree. The institutional fee applies to non-EEA students and to those not eligible for the statutory fee, such as second-degree students.

Numerus fixus means a fixed number of places with selection or a lottery. VWO is the Dutch pre-university secondary diploma; HBO is a university of applied sciences. Studielink is the Dutch national enrolment system and SIS is UvA's own application system.

Accuracy

Requirements, deadlines and fees change every cycle. This document is a snapshot of the pages on the retrieval date, with programme descriptions paraphrased. The university's website is authoritative; verify before giving an applicant a definitive answer.

University of Amsterdam: tuition fee rates 2026-2027

Rates per academic year from UvA's central tuition fee table. For enrolment from 1 February the fee is 7/12 of the annual rate.

Statutory fee 2026-2027 (eligible EU/EEA, Swiss and Surinamese students, first degree)

Full-time: EUR 2,694. Part-time: EUR 2,296. Dual: EUR 2,694. Amsterdam University College (AUC): EUR 5,580. Politics, Psychology, Law and Economics (PPLE): EUR 5,659. A second Dutch degree in education or healthcare also qualifies for the statutory fee of EUR 2,694.

Institutional fee 2026-2027

Each line gives the category, then the fee for EEA, Swiss and Surinamese students who are not eligible for the statutory fee, then the fee for non-EEA students.

Supervision: At least one supervisor affiliated with the UvA who holds the right to award doctorates (ius promovendi) must agree to accept the candidate. A second supervisor is always appointed

English language: A good command of English is essential; faculties or institutes may set further requirements. No test scores are stated

Other conditions: The candidate may not already hold a Dutch doctorate or PhD and may not be enrolled in another doctoral programme elsewhere

Application fee: Not stated on source page

How to apply: Apply for a PhD vacancy or submit an open application to a prospective supervisor
